

## **T.V. Graphic Tutorial**

### **Stadium Background Graphic**

Step One: Open the graphics program that you wish to use, I'm using GIMP so if you are using photoshop, then you may need to do a different thing at some point. Open up a new canvas at a maximum size of a signature.

Step Two: Go onto google images, and search for your teams stadium, I'm using the stadium of light as an example. Copy and paste your image into the canvas and re-size it to your liking.

The result so far

Step three: Make a new layer. Get a image of your teams logo and place it to your liking. You can use the link in the OP for logo images.

Step four: Now get some text on your graphic! you can put "[your club name] T.V. or a name that you have created. Place it in a visible place.

Final Product - Your's should look similar

## Transparent Background

Step One: Open the graphics program that you wish to use, I'm using GIMP so if you are using photoshop, then you may need to do a different thing at some point. Open up a new canvas at a maximum size of a signature.
